A solar generator is a compact, portable power station that captures the sun"s energy through solar panels, stores it in a high-capacity battery, and converts it into electrical power. Unlike a conventional generator, a solar powered generator operates silently, produce no emissions, and require no fuel other than sunlight.

But the benefits don"t stop there--solar-powered generators are also easier to start, quieter, lower maintenance, and, of course, kinder to the environment. Our favorite solar generator for emergency backup power is the EcoFlow Delta Pro. It combines a fast solar charge time with a generous 3.6 kWh capacity, can directly power your home"s ...

The other issue is the lack of a USB-C port, something that virtually all portable solar generators have. The Explorer 500 doesn"t even offer a quick charge port. Summary. The Jackery Explorer 500 is a great choice if you need a lightweight and compact solar generator that can keep your devices charged and power some small appliances.
