Afghanistan http jkewm gydfsoft com

While it is helpful to recommit your django project wrapper back to a distributed version control repository. * It is also important to remember that production instances will store security information in the local_settings.py * Admin/Devs should always remember to exclude this file in the .gitignore file in the same folder as the .git:

???(????????: ????????? ?)?????????????,??????????? ???????????,????????????????????? ?????????????,???????????????,?????????????????????

???(????????: ????????? ?)?????????????,??????????? ???????????,????????????????????? ?????????????,???????????????,? ...
