Agsi gie storage Aruba

March 7, 2022 Download this Press Release (PDF, 141KB). Brussels, 7 March 2022 . AGSI+ welcomes 2 new German Storage System Operators (SSOs): Gas Infrastructure Europe (GIE) is pleased to welcome EDF Gas Deutschland GmbH and EnBW Etzel Speicher GmbH as data providers on its AGSI+ Transparency Platform.The two compagnies jointly operate a storage ...

AGSI+ Aggregated Gas Storage Inventory Platform (https://agsi.gie /#/) BSU Bundled Standard Unit BSV Booked Storage Volume (in TWh) GIS Gas in Storage (in TWh) UGS Underground Gas Storage SSO Storage System Operator WGV Working Gas Volume (in TWh) WSO Winter Supply Outlook Winter Season: October until March 1. INTRODUCTION

Demnach sind auch die österreichischen Erdgasspeicher der OMV Gas Storage (Schönkirchen, Tallesbrunn), RAG Energy Storage (7 Fields, Haag, Aigelsbrunn, Haidach5 Haidach), Uniper Energy Storage (7 Fields) und SEFE Storage (Haidach) abgebildet. ... //agsi.gie /#/ Anm: 0,54 TWh der strategischen Reserve liegen in einem slowakischen Speicher ...

The Storage Database is the base of the Storage Map. It shows the operational data such as working gas volume, injection and withdrawal capacities of storage facilities as well as the under construction and planned storage sites.

MSs have a storage capacity larger than their national gas consumption (Austria and Latvia), and are used at regional level (e.g. serve Southern Germany and the Baltics, respectively). Gas storage supplies 25-30% of the gas consumed during winter.

European Storage Operators (SSOs) are publishing the needed transparency information on their websites, in particular the one requested by Regulation 715/2009. However, to promote access to this information in a harmonized way GSE members have decided in February 2013 to jointly develop a common facilitating tool that will make the already ...

Gas Storage Europe (GSE) represents the interests of 31 Storage System Operators with around 102 storage sites in 21 countries in Europe, representing approximately 91 BCM, i.e. 84% of EU technical storage capacity. GSE is one column of GIE, Gas Infrastructure Europe, the European association of the Transmission, Storage and LNG terminal Operators.

3 ???· Storage level: quantity in storage at 06:00 CET. Injection/withdrawal: ... RAG Energy Storage publishes its storage data on the following Europe-wide website: https://agsi.gie /. Under this link historical data can be downloaded. Top. Print. Contact. Executive Board: Thomas Lejcko T +43 50 724-5502 F +43 50 724-5599 M +43 664 811 9494

Agsi gie storage Aruba

A (more or less) simple script that reads data from the AGSI/GIE (Aggregated Gas Storage Inventory) API and stores it in an InfluxDB for later use with Grafana or similar. The AGSI/GIE website provides gas filling levels for various countries in Europe. - LordOfTheSnow/agsi

Note to editors. Gas Storage Europe (GSE) represents the interests of 32 Storage System Operators with around 100 storage sites in 16 countries in Europe, representing approximately 79 BCM, i.e. 88% of EU technical storage capacity .GSE is one column of GIE, Gas Infrastructure Europe, the European association of the Transmission, Storage and LNG terminal Operators.

The Agency for the Cooperation of Energy Regulators (ACER) published an in-depth report on the Gas Storage Regulation [44], and GIE AGSI + TP was one of their main sources of information for providing key storage indicators per country.

GIE is offering an API service (Application Programming Interface) on its AGSI+ and ALSI transparency publication platforms at https://agsi.gie and https://alsi.gie which provides quick, continuous and direct access to the database and allows you to filter, create queries and export the data as required.

Note that for storage data, a dataset can be either an individual storage facility, or a storage group (virtual storage) which is comprised of multiple storage facilities. The composition of a storage group can evolve and change over time (any changes will be reported through a Service Announcement). (Storage) Facility Operators

A mention of GIE, AGSI or ALSI (as applicable) as data source is a minimum requirement. Example : indicate GIE (Gas Infrastructure Europe) or GIE AGSI / ALSI platform as data source underneath the data or insert ... Only the daily storage and LNG inventory reporting on the platforms is made available though the API service. Unavailability ...

AGSI delivers online daily data representing approximately 76 BCM, i.e. 85 % of EU technical storage capacity. It publishes for 31 storage operators in 15 member states, volume in stock as well as the daily injection and withdrawal.

Note to editors. Gas Storage Europe (GSE) represents the interests of 31 Storage System Operators with around 110 storage sites in 15 countries in Europe, representing approximately 79 BCM, i.e. 88% of EU technical storage capacity .GSE is one column of GIE, Gas Infrastructure Europe, the European association of the Transmission, Storage and LNG ...
