Ampace jp40 Solomon Islands

Under a 10A load Ampace has 14Wh capacity compared to Molicel P45b 13Wh. It"s also worth noticing, that the nominal voltage from the datasheet is 3.7V, same as with lipos, compared to 3.6V for other li-ions. ... For a 2P JP40 pack using 40x45mm 0.20 that"s ~9mm² and 8ga equivalent for 200A/300A and doubtful you"ll find an airplane using 200A ...

I have yet to to test the EVE 40PL and Ampace JP40, cells with very high current ratings, but will be directly comparing them to the Molicel P45B and P50B. For discharging at low power levels, about 7A and lower, the Samsung 50S, BAK N21700CG-50, and LG M50LT will all run for a bit longer than the P50B. But as the power levels keep rising the ...
