But cleaner, more cost-effective change is arriving. The electric vehicle revolution is gaining momentum in Rwanda, where Africa"s first e-motos made by start-up Ampersand can help to reduce emissions - producing 75% less lifecycle greenhouse emissions than petrol motorbikes using grid power, and over 98% less on renewables.

The income they generate typically supports 4.6 people people on average in Rwanda and 3.8 people in Kenya. Ampersand"s solution is designed with taxi drivers" in mind. Our guiding philosophy is to offer drivers a motorcycle and energy that costs less to acquire and operate, outperforms their current setup in every way, and happens to be electric.
