Andorra mld energy

Does Andorra have a competitive electricity market?
Although Andorra is very dependent on the outside world in terms of energy,its electricity market is quite competitive.

Why is electricity cheaper in Andorra compared to other countries?
As in Andorra the special taxes are lowcompared to other countries,electricity is more affordable and the price of electricity is lower.

Did Andorran raise the price of electricity in 2022?
The Andorran electricity company finally raisedthe price of electricity in 2022. The increase in prices and volatility in the European energy markets as a result of the geopolitical context,have made a rate increase inevitable.

Why did Feda decide to keep electricity in Andorra for 2022?
It is due to a series of factors and commitments carried out by FEDA and the Government of Andorra. First, decided to keep the price of electricity the same than in 2020, and the intention is that it will also be maintained for 2022. Basically to support families and companies that are affected by the economic and social crisis caused by COVID-19.

How does fuel tourism affect energy consumption in Andorra?
(Source: the authors, based on the data from the national GHG inventory) One characteristic feature of energy consumption in Andorra is the significant influence of fuel tourism, in other words, the amount of fossil fuels for road transport sold in Andorra but actually consumed in the neighbouring countries.

What are the mitigation actions in Andorra?
The mitigation actions are implemented across all sectors,with the energy sector being the major focus,particularly in the areas of buildings,mobility and electricity. Andorra's historical GHG emissions data show that the emissions level reached its peak around 2005 and have been stabilized since then.
