At SUD we have a delegation in Andorra, a country where we have been installing panels for self-consumption for years. It could not be otherwise a country where caring for nature is one of the keys to its economy, where the Pyrenees are the heart of its life.

Solar power: Electric Panels get connected to the power line coming from the solar energy system. The current gets distributed to various circuits inside the house. Conventional power line: Conventional power lines transmit power to the households. Here a main electrical panel box is installed along with the circuit breakers.
