Angola solar installment

What is the Angola solar project?
The Angola Solar Project creates new opportunities for Angolan communities that will no longer be forced to rely on and pay for gasoline or diesel generators. Each one of the five projects that comprises the Angola Solar Project will supply the needs of 500,000 Angolan homes, mainly in rural areas.

How many MW of solar power will be installed in Angola?
The projects will be installed in the Moxico,Lunda Norte,Lunda Sul,Bie,and Malanje provinces,adding 296 MWof solar capacity and 719 MWh of battery energy storage system to the Angolan grid. The facilities will provide electricity to power one million consumers. Clean energy firm MCA Group has been tasked with the construction of the projects.

Will Angola get 60% electricity by 2025?
Angola has set a target of 60% access to electricity by 2025under the strategic plan 'Visao 2025,' of which solar is poised to play a central role. Supporting electrification as well as diversification,solar projects are being rolled out by the government alongside international partners and project developers.

What makes Angola a good country for solar power?
Abundant sunshine,high solar radiation levels and a low electrification ratemake Angola conducive to the development of solar photovoltaic power. The country's first solar power plants - located in Biópio and Baía Farta - were inaugurated in July 2022 and will supply electricity to 1.5 million households.

Will a 150 MW solar plant help Angola?
An agreement for the development of a 150 MW solar plant was signed between Angola's Ministry of Energy and Water and UAE-based renewable energy company Masdar in Dubai last December. The 150 MW project will produce electricity to power 90,000 homes,contributing to job creation,emissions reduction and efforts to increase national electrification.

Who owns solar power in Angola?
The asset is owned,run and financed by French energy giant TotalEnergiesin partnership with Sonangol and local renewables company Greentech - Angola Environment Technology. In May 2022,President Lourenço approved a contract worth USD 1.02 billion for the development of new solar projects with the aim of electrifying 60 communes.
