Has anyone used the Apexium 48v 280a battery box kit? Looks pretty cut and dry. Comes with everything but the batteries. Cost is $700 plus tax, shipping included to lower 48 states. Is this a good deal?

I"ve seen a few videos and read a ton of comments but I"m not sure if I should be Apexium or EEL battery boxes? Each one has its pro"s and cons. ... APEXIUM (APEX) DIY 280 BOX - EXCELLENT VIDEO ghostwriter66; Jul 25, 2024; DIY LiFePO4 Battery Banks; Replies 13 Views 1K. Wednesday at 9:18 AM. JäseH. J.

I got a quote for the 16 x 280AH cells + Apexium DIY Box and cables from battery to inverter was $2070 then shipping was quoted $360 (not sure why so much), then $100 transaction fee??? I think the shipping is to much unless it is because of the DIY box??

I got one of the Apexium 100A BMS boards and 16 x 105AH Eve cells. I would like to to this 100% instead of just "slap" together: Any advice on the following: 1. Should I first top-balance the cells? Thinking of paralleling in 2 ...

I got cells from Apexium and BMS from seplos. This Apexium BMS looks identical to my seplos. CAN comms work perfectly fine with my Solis s6 which I think is what you have. The BMS is working better than

expected and I"m getting much better balancing than the r - off grid garage. My cells have a 3-10mv voltage variation at all times.

DIY 48v steel battery enclosure for LiFePO4 cells with dimensions of 680*410*260mm Box requires 16 cells for 52v nominal and it requires the end user to separately purchase and ...

Ray Builds Cool Stuff"s videos on the Apexium 280 battery box and other battery builds have been very helpful to me. I just got some MG 847 in the mail, and plan to use it to reduce resistance in the connections. I plan to sand the contacts WITH the MG 847 to prevent any new oxidation from forming immediately after the sanding.
