Aspiro Adventure wants to sincerely thank all who have made it possible for us to help thousands of adolescents, young adults, and their families to find hope, healing, and lasting change. This endeavor has been profoundly life-changing for us as care providers, and for the families Aspiro has served over the years. ...

In 2007, Anglec placed an order for an additional generating set capable of producing 5.4 megawatts of electricity, based on expected load growth. The unit arrived in Anguilla on 1st February 2009 and installation is expected to be completed by June. The addition of this generating set will increase Anglec"s capacity to more than 28 megawatts.

The electricity supply in Anguilla is primarily managed by the Anguilla Electricity Company (ANGLEC), a state-owned utility that is responsible for generating, transmitting, and distributing electricity across the island. ANGLEC operates a number of power plants, including diesel generators and a solar farm, to provide electricity to its customers.
