Island Solar specialize in off grid solar electric systems in the Caribbean. It is important to understand a few key points if you would like to live completely off grid. The most important is understanding that the more power you use, the more a solar system designed to meet those power requirements will cost.

Bahamas Solar and Renewables (BSR), a subsidiary of FOCOL, and Grand Bahama Power Company (GBPC), yesterday entered into a power purchase agreement (PPA) for BSR to provide five megawatts of solar electricity to Grand Bahama"s grid, in a continued bid for GBPC to decrease its reliance on fossil fuels and to stabilize power costs on Grand Bahama.

This type of system has become the most commonly installed type due to the lack of need for maintenance and much lower price than a battery based off grid system. A grid tied, battery-less solar system in the Bahamas is allowed by ...
