The CEO of Ecostar Energy Côte d"Ivoire, Sylvain Kouame, added, "Like most African countries, the Ivorian economy is heavily reliant on agriculture. Biomass generated as a byproduct of farming activities

could foster socio-economic growth in marginal regions through its capacity to enhance energy security. This grant from USTDA comes in a ...

It also includes non-energy uses of energy products, such as fossil fuels used to make chemicals. Some of the energy found in primary sources is lost when converting them to useable final products, especially electricity. As a result, the breakdown of final consumption can look very different from that of the primary energy supply (TES).

Bahrain is also beginning to ramp up investment in renewables as it works towards its goal of reaching net-zero carbon emissions by 2060. The spike in oil prices in early 2022 could offer ...

To reach this target, Bahrain aims to produce 710 MW from renewable sources by 2035. Bahrain"s Sustainable Energy Authority was created in 2019 to oversee efficient energy policy and promote renewables in the energy mix. The entity is targeting solar, wind and waste-to-energy facilities to achieve its goals.
