Hitachi Construction Machinery and First Quantum Minerals have announced that they have entered into a Letter of Intent to advance the development of sustainable mining solutions at First Quantum"s flagship ...

Sustainability is the focus of the battery container industry. The use of recyclable materials and the promotion of the circular economy are central pillars. The containers contribute to environmental protection through the following properties:

These are used for standard and non-standard storage and shipping requirements, including refrigerated or freezer storage, as well as container conversions for a broad spectrum of mobile home, office and storage requirements.
