# Belgium ix renewables

Does Belgium have a future for offshore wind?
Progress on renewable energy has been especially pronounced for offshore wind. In 2021,Belgium had the sixth-highest offshore wind capacity in the world and is planning for a major expansion of offshore wind deployment. Belgium faces notable challenges as it continues to push for its energy transition.

How many suppliers dominated Belgium's Electricity Market in 2019?
In 2019,just one supplier had a 72% market share at the wholesale level,while just four suppliersdominated Belgium's retail electricity markets. More effort is needed to remove barriers to competition and ensure that new companies and innovative services can enter the market.

Does Belgium have a low emissions rate?
Belgium's emissions make up 3.3 % of the EU27 total and have decreased by 17.2 % since 2005. This is below the EU-wide emissions reduction of 19 % in the same period. Land use,land use change and forestry (LULUCF) emissions have remained stable since 2005,enabling net emissions to follow the trend set by total emissions in the country.

One of the roles of IX Wind is expanding the Taipower Phase II OWF project team with experts, package leads and senior management. The experts that will be reinforcing the project team originate from both IX Wind, as well as from IX Wind"s international network. Since December 2020 the project team has gone through significant developments.

Renewable energy here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal energy. Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be ...

About IX Renewables. IX Renewables, headquartered in the Netherlands with offices in Taiwan and Japan, is a leader in the renewable energy sector, dedicated to advancing sustainable energy solutions globally. As the coordinator of the Rui-Li 1 project, IX Renewables oversees the development of Taiwan"s first floating offshore wind project.

Forte Renewables offers Technical Advisory, Owners Engineering and Project Management services to renewable energy investors on a global basis. Forte and IX have a long mutual track record and have established a partnership in 2020 ...
