Belgium system container

Why is port of Antwerp-Bruges a container port?
Containers are a familiar and convenient way to transport these kinds of products. Port of Antwerp-Bruges is even the second largest container port. Port of Antwerp-Bruges smoothly receives the world's largest container vessels. Good draught and smart use of tides makes the port accessible for ships up to 23,000 Twenty foot Equivalent Unit (TEU).

How to pick up a container in Antwerp?
To pick up a container at a terminal in the port of Antwerp,a unique PIN codeis needed. The time between providing the PIN code by the shipping company and the driver entering this code at the terminal is considerable. Moreover,the PIN code is seen by various parties,which increases the risk of abuse.

Does de Rijke group offer container transport in Belgium?
For many years,De Rijke Group has offered container transport in Belgium. To do this,we use an extensive fleet with which we transport sea containers from the Port of Antwerp to your final destination in the Benelux,Germany and France. So,whether you want your materials transported to Bremen or to France: it's all possible.

What is a container loading terminal?
Any loaded container that is brought by seagoing vessel to a terminal in the Port and then unloaded at this terminal. It simplifies administrative processes, allows employees to work more securely and reduces the turnaround time of import containers in the port.

What is a TEU container ship?
TEU is a standard sizeand means that on a container ship there is storage space for 23,000 sea containers that are 20 foot long. The containers' fixed size offers a major advantage. It means that the containers can fit on seagoing vessels,trucks,inland navigation vessels and train carriages.

How does a container terminal work?
Each container terminal has multimodal access,which ensures fast and efficient transport of containers by road,rail and inland navigation to and from the hinterland. An extensive network of connections brings the goods to the European hinterland. Curious about the possibilities? Check our Routescanner.
