Bermuda toward a smart grid

BELCO (Bermuda Electric Light Company), the lone provider of electricity to the island nation for the past 100 years, has chosen the BRIDGE Energy Group, a self-proclaimed trusted advisor and implementation partner, as its sole aide in smart grid integration.

The Ministry of Home Affairs is encouraging the public to participate in the next-generation Integrated Resource Plan (IRP) consultation process, highlighting the community"s crucial role in shaping Bermuda"s ...

The Ministry of Home Affairs is encouraging the public to participate in the next-generation Integrated Resource Plan (IRP) consultation process, highlighting the community"s crucial role in shaping Bermuda"s energy future.

Hamilton, Bermuda --- (METERING) --- March 6, 2009 - Mandatory smart metering with time-of-use rate structure and a net metering capability is under consideration in Bermuda as this Caribbean island develops a strategy for the conservation and efficient use of ...

This is a crucial opportunity for our community to guide Bermuda toward a sustainable, resilient future. Imagine our island as a global example of small communities uniting together to fight the climate crisis and reduce the cost of living and doing business.

The Bermuda Ministry of Home Affairs and RMI embark on the journey to transform Bermuda"s energy system starting with two clean energy projects: electrifying the public bus fleet and creating a more resilient, renewable grid.

The white paper states that due to the importance and urgency of electrical system reform, the government will begin work with the incumbent electric utility (Bermuda Electric Light Company) immediately to lay out a framework for the future of electricity delivery and metering systems in Bermuda.
