BGS Beta-Gamma-Service GmbH & Co KG - BGS for short - is one of the pioneers in the industrial application of beta (E-Beam) and gamma radiation. We use ionizing radiation in our systems to ensure that harmful microorganisms on sensitive products are destroyed quickly, reliably and in an environmentally friendly manner.

Our products and services are suitable for industrial sites, offshore installations and vessels, architecture, heritage, and large-scale urban regeneration projects using the latest laser scanners: ZF Imager 5010C, ZF Imager 5010, Reigl VZ-400 (long-range), and Leica Total stations for control measurement.

These methods have been refined and proven through years of successful service work in settings all over the world. The are now available to the industry as applications designed for ease of use, and integration with everyday geoscience workflows. ... BGS Energy Services . Home. Corporate. HSE. Careers. Contact.
