We are always looking to expand our network of high quality installers in North America. It is free to be a part of our network,and there is no membership or hidden fees.

Is greenmatch a good solar installer?
We're really please that you found our service so easy to use. Though we used green match too late in the day and had committed to the really expensive project solar , it really is worth gooing to the other solar panel installers out there. If only we had found greenmatch sooner, they would have saved us at least 4k.
