Chad kilowatt labs sirius

What makes Sirius a safe alternative to chemical batteries?
Sirius,from Kilowatt Labs,is a safe,efficient and effective alternative to chemical batteries due to Kilowatt Labs' proprietary balancing,control and charge retention algorithmsthat manage the operation of the supercapacitor-based modules.

Who is kilowatt labs?
The first Sirius Supercap installation in the Telecom industry in the USA. Read More Kilowatt Labs is a team of inventors dedicated to delivering quality products to combat the world's energy storage problems. Connect with us!

What is the Sirius capacitor module (Sirius)?
The Sirius Capacitor Module (Sirius) is a type of storage system that uses supercapacitors as storage cells instead of chemical cells.

Can the user manual for Kilowatt be copied?
No part of this Kilowatt user manualmay be reproduced,or transmitted,in any form or by any means,without the prior written permission of Kilowatt Labs,Inc. ('Kilowatt' or the 'Company'). Specifications in this Manual are subject to change without notice.

Kilowatt Labs" proprietary balancing, control and charge retention algorithms control the operation of the supercapacitor-based modules, making Sirius a safe, efficient and effective alternative to chemical batteries wherever chemical batteries are deployed.

8Consult Kilowatt labs or its Reseller for information on connecting modules in series. Product dimensions are for reference only unless otherwise identified and may change without notice. For critical applications, please contact Kilowatt Labs, Inc., or its Reseller.

The "Super" Battery, produced by KiloWatt Labs and referred to as the Sirius Capacitor Module, is the world"s first supercapacitor-based energy storage system. This revolutionary new technology can be used for everything from residential solar installations to ...

8Consult Kilowatt labs or its Reseller for information on connecting modules in series. Product dimensions are for reference only unless otherwise identified and may change without notice. ...

Sirius Energy Storage products for stationary applications are currently available in selected markets. This modular and scalable system provides a technically and commercially viable, plug-and-play replacement for chemical batteries.
