Dukovany"s four units started up in the 1980s (Image: CEZ) The tender for new nuclear was originally for a binding offer for one new unit at Dukovany and non-binding offers for up to three more - another one at Dukovany and two at Temelín.

The Czech Republic operates two nuclear power plants: Temelín and Dukovany.As of 2019 the government intends to increase the share of nuclear electricity production from 30 % to 58 %. To this end, a new reactor is to be constructed at the Dukovany site, which will replace older units by 2035. New capacities are also expected to be added at the Temelín site.

The Temelin nuclear power plant is Czechia"s largest electricity producer, covering about a fifth of domestic consumption. The Czech government will discuss the construction of two units there ...
