Cleantron battery The Netherlands

Where is cleantron based?
Cleantron engineers &produces Li-ion Battery Modules and Battery Systems. This for as well Low Voltage (24,36 &48V) as High Voltage Systems. Cleantron is located near Amsterdam in the Netherlands

Where are cleantron batteries made?
Cleantron develops and produces Li-ion Battery Packs in Nieuw-Vennep,on bicycle distance of Amsterdam,The Netherlands. The Batteries of Cleantron are used in several markets,like Industry 4.0 (AGV's Yellow Goods); LEV's (e-Scooters/e-Motorcycles),Electric Vehicles (Urban Mobility) and the Automotive Sector.

Does cleantron produce batteries?
Cleantron develops Batteriesto be produced by Cleantron. Alternatively,in some cases (e.g. in the Automotive Sector),we can produce "Build-to-Print" Batteries. This concerns then Battery Prototypes as well as Series Product for Automotive Niche applications (Motorsport,special LCV,Luxury).

What's new at cleantron Berlin?
Cleantron will be in Berlin on January 23 & 24 to discuss our latest offerings for the non-road industry, including our advanced 48V Battery Modularity and scalable High Voltage (HV) Cleantron is proud to support the future of mobility. Phoenix by TU/ecomotive is a great example of this innovation.

Who does cleantron work with?
For this matter Cleantron works together with Technical Universities (in the Netherlands, Belgium and Sweden), Knowledge Institutes, Legislators (National, European and UN) and Test Institutes. Cleantron develops and produces Li-ion Battery Packs in Nieuw-Vennep, on bicycle distance of Amsterdam, The Netherlands.

What is a cleantron battery management unit (BMU)?
The Cleantron Battery Management Unit (BMU) is a central processing,protection and control unitdesigned for both low voltage <60VDC and high voltage applications. The BMU is designed to meet safety standards compliance like the ISO26262 and IEC61508 for automotive and industrial applications.

Technology for Automotive Cleantron Batteries ASML Eindhoven. Meet Cleantron at the Technology for Automotive show. The event, which is an exhibition and conference, takes place Mikrocentrum, Veldhoven, The Netherlands (near Eindhoven) at the ASML facility.

Cleantron can analyze your battery related problems and develop the most appropriate test for your application. We can have the tests executed in-house or in collaboration with 3rd parties. Cleantron collaborates with numerous Test Institutes and Technical Universities in the Netherlands, Belgium and

Sweden.

At Cleantron the focus for Battery Management is on advancing the way we understand the Data that is gathered from the Cells. By developing smart algorithms, that understand what is sensed by the sensors in the BMS, the strategy for managing the Battery Cells can be chosen more suitably. ... The Netherlands +31 (0)71 887 60 76. info@cleantron ...

Discover Cleantron"s lithium-ion battery applications for e-mobility (LEV, e-bike, Last Mile Delivery, Agricultural and Industrial Vehicles). Skip to the content. Search. Search. Menu. Home; Products. ... The Netherlands +31 (0)71 887 60 ...

The Dutch company Cleantron has presented a modular battery system for light electric vehicles (LEV) such as electric scooters and microcars. The system combines a permanently installed lithium-ion battery with compact, portable Li-ion batteries and a DC/DC converter. Cleantron is a manufacturer of portable 48V lithium-ion batteries.

48 Volt and 72 Volt Battery Modules for Non Road Applications like Agriculture, Construction and Mining Industry ... Cleantron ® is a Specialist Producer of Li-ion Battery Modules. Cleantron ... The Netherlands +31 (0)71 887 60 76. ...

The exhibition, to be held in Amsterdam, the Netherlands, June 21, 22, 23, 2022, is dedicated solely to showcasing the very latest and next-generation electric and hybrid marine battery and electric propulsion technologies and solutions. ... Cleantron ® is a Specialist Producer of Li-ion Battery Modules. Cleantron ...

Join Cleantron at the "5th Annual Electrification & Battery Development for Non-Road Applications Conference" on January 13, 2022. ... Cleantron ® is a Specialist Producer of Li-ion Battery Modules. Cleantron ... The Netherlands +31 (0)71 887 60 76. info@cleantron . Search. Search.

The Cleantron Circular e-Bike Battery opens up new horizons in the domain of e-bikes. This innovative battery brings together cutting-edge technology and eco-conscious design, redefining the way we power our e-Bikes. ... The ...

Explore Cleantron"s Tailored Li-ion Battery Modules with Advanced BMS Solutions - Expert Development and Production of Battery Systems. Skip to the content ... facility is located close to the ports of Amsterdam and Rotterdam and is next door to Amsterdam Schiphol Airport in the Netherlands. Cleantron has, next to automated Assembly Lines for ...

As a leader in the European li-ion battery industry, Cleantron supports the new regulations in order to create a safe and sustainable future. The purpose of these regulations is to facilitate the safe incorporation of energy storage technologies into a variety of applications, which include industrial machines and electric vehicles.

Cleantron battery The Netherlands

Advanced Battery Modularity for the French market. Next Tuesday, February 2nd, @10:20 CET, Cleantron will be present at the online conference for French key players from Bretagne and Pays de la Loire in the e-mobility sector. The presentation is focused on our battery technology allowing new battery usage concepts (i.e. High Power MPC; see Cleantron [...]

Cleantron develops Batteries to be produced by Cleantron. Alternatively, in some cases (e.g. in the Automotive Sector), we can produce "Build-to-Print" Batteries. This concerns then Battery Prototypes as well as Series Product for ...

The Netherlands offers numerous opportunities to lead the way in the production and assembly of battery systems. To this end, it is important to design clever and scalable battery systems that are easy to assemble and reuse/recycle. ... Cleantron. Pesetaweg 37, 2153 PJ Nieuw-Vennep. DEKRA. Meander 1051, 6825 MJ Arnhem.

Li-ion Battery Packs are a key to success of the new, modern, Urban Mobility. Quality and Lifetime are a main aspect of that key. Cleantron will publish at the LEV Conference about best practices, sensible use and optimal life time.

Ecomobiel has grown to become the biggest platform for innovative and sustainable mobility in the Benelux. Cleantron will showcase Scoozy, the Dutch Mobility Scooter, that is not just a helping aid but a cool gadget, and world"s first circular Car Noah, both empowered by Cleantron. Meet Cleantron at Booth E051. For more look at: Ecomobiel.
