OATI Microgrid Technology Center putting on final touches Friday, December 9th, 2016 Open Access Technology International (OATI) is putting the final touches on the new OATI Microgrid Technology Center, situated in the high-traffic cross section of 494 and Highway 100 in Bloomington, Minnesota.

OATI"s webSmartEnergy ® DERMS platform fulfills NISC Co-op-Partner Program goals Minneapolis, MN (March 06, 2023) - Open Access Technology International, Inc. (OATI) is pleased to announce its partnership with National Information Solutions Cooperative (NISC).OATI has integrated its innovative webSmartEnergy ® DERMS solution with NISC"s Marketing ...

OATI () is the leading provider of Smart Grid, Energy Trading and Risk Management, Transmission Scheduling, Congestion Management, and Market Management products and services, with headquarters in Bloomington, Minnesota and offices in Redwood City, CA and Naples, FL. For more information, please contact sales@oati . ...

Minneapolis, MN: December 14, 2021 Open Access Technology International, Inc. (OATI) is readying its resources to guide and create partnerships with utilities, hospitals, tribes, universities, farms and energy-conscious cities and communities to access Infrastructure bill funding for green energy and smart-grid energy projects.

Tribal nations too are driving energy sovereignty plans toward decarbonization, greater grid reliability, and great energy independence. Distributed Energy Resources like solar and battery energy storage, full microgrid sites, and electric vehicle charging infrastructure are taking center stage in these plans.

The new Microgrid Technology Center for OATI is a five-story office and data center facility. This award-winning project is a showcase of technology that controls an Advanced Microgrid and utilizes waste heat from power ...

The OATI Energy Conference returns to Las Vegas in 2025 for OATI"s 30 th Birthday Bash! Be sure to save the date so you don"t miss out on what is sure to be our biggest and best conference yet! Be sure to save the date so you don"t miss out on what is sure to be our biggest and best conference yet!

OATI"s Microgrid group is growing fast, and looking to add additional qualified staff to the team. Microgrids are an exciting part of the new smart grid. They are electrical systems with the ability to generate their own power, disconnect and reconnect with the grid, and perform services to aid the greater power grid when they

are grid-tied.

The new Microgrid Technology Center for OATI is a five-story office and data center facility. This award-winning project is a showcase of technology that controls an Advanced Microgrid and utilizes waste heat from power production.

« BACK OATI Microgrid and EV Charging Capabilities Make News at EV Charging SummitA recent Kiosk Marketplace article about the 2023 EV Charging Summit & Expo featured OATI Energy Expert Tim Clashin and our microgrid. Learn more.

The OATI microgrid technology center pictured on the right is a fully functional microgrid! OATI built this microgrid to serve a few different purposes. First, within the walls of the microgrid is OATI"s data center. Having ...

Aprenda en seis pasos como administrar los mercados actuales en constante cambio y el papel que juegan las soluciones de energía de OATI para apoderar el comercio de energía y productos básicos.

Microgrids Are Giving Power to the People Around the country, developers are building microgrids -- energy-resilient communities that act as their own energy source. Real Estate BOBBY ALTMAN FOR THE NEW YORK TIMES Heron"s Nest uses an OATI microgrid automated con-troller, which can be designed to address the needs of various kinds of microgrids.

OATI is the Executive Sponsor of the EV Charging Summit & Expo, with three on-stage speakers: Linda Stevens, OATI Chief Strategy Officer of Smart Grid and Smart City; Matt Kiesow, OATI Director Strategic Product Incubation, and Alexander Fohey, OATI Senior Manager Microgrids. Their presentations encompass the following topics:

With more than 27 years of extensive energy technology expertise, OATI provides innovative solutions that simplify, streamline, and empower the operational tasks required in today"s energy industry and power grid.
