Commercial power inverters Armenia

2.2MW ArSun-1& 2 PV project, the largest commercial solar power station in Armenia, set to reportedly provide electricity supply in Hrazdan community were inaugurated by an EPC company (KSTAR"s Exclusive partner in the country) on November 13th, 2019.

For the 2.0MW (AC) ArSun plant Shtigen chose 32 KSTAR KSG 60KW and 2 KSG 30KW solar inverters. Power from the system is converted using the advanced technology of KSTAR smart PV commercial solution that includes AC output overloading up to 110%, SVG function with fast response to the reactive power control,low investment, as well as low ...

On-grid solar inverters are most commonly used in homes or businesses. These systems do not require a battery as they run on the main power. Choosing this system will allow you to store the extra electricity produced by your power plant in the main for later use. And thanks to the metering law in Armenia: "...

In order to introduce smart PV solutions to the customers and reduce costs, maintain a high level of safety, the 2.2MW ArSun-1& 2 PV system is equipped with KSTAR solar inverters KSG 60KW.
