CuraÃ§ao intersect power

What is Curacao's energy policy?

In 2009, Curacao developed an energy policy document, which sets out general guidance and governing principles for further study of energy issues.4 It suggests the goal of reducing energy consumption by 40% by 2020 and encour- ages the investigation of combining wind power with storage to provide 100% of the island's energy needs.

Why does Curacao face energy security issues?

Curacao faces energy security issues not only due to its reliance on imported fuels but also because of the age of its generation infrastructure. Thirty megawatts (MW) of Aqualectra's generation portfolio is beyond its expected service life and the surplus power from the RdK refinery is subject to frequent outages.
