IFC supports its clients in addressing environmental and social issues arising from their business activities by requiring its real sector clients to set up and administer appropriate grievance mechanisms and/or procedures to address complaints from Affected Communities in relation to environmental and social issues arising from IFC"s clients" business ...

At d.light, we are dedicated to transforming lives through affordable and sustainable solar energy solutions, empowering over 175 million people globally. Our goal is to provide clean energy access that fosters education, improves health, and creates economic opportunities.

But then a ray of hope pierced the darkness, d.light"s iMAX 10 Solar inverter burst onto the scene bathing the health center in radiant light. The staff"s faces lit with joy, their work transformed by the power of sustainable energy.

"The investment underpins the catalytic role of the company in making available clean, reliable solar energy solutions through the pay-as-you-go business model that enables off-grid customers to pay for solar lighting products in affordable instalments using various mobile payment options.

The d.light S3 is our top selling solar light in Africa. It is a low-cost, robust task light. A full day"s charge gives 12 hours of light. Hang it from a wall, use on a desk or outdoors. The built-in solar panel enables easy charging. Every light you buy helps get another to rural Africa.
