Ecobat is a world leader in the production of lead, lead alloys, and the recycling of lead batteries. Our vast network features 11 smelters across two continents with an average annual output of 840,000 tons of lead. Our production is matched by our lead recycling system which allows us to recover and repurpose over 99% of the metal.

Business Development & Technical Director at EcoBat Technologies Ltd · Experience: EcoBat Technologies Ltd · Location: Matlock · 75 connections on LinkedIn. View Andy Hampson"s profile on LinkedIn, a professional community of 1 billion members.

Unlike Ecobat, some "disposal" agencies may send intact batteries overseas for cell harvesting. That means your scrap battery material may end up in a new application without your knowledge or permission. Ecobat is committed to recycling and can provide evidence and documentation that your batteries have been recycled.
