Currently, most El Sauce residents spend ~$8 per month on kerosene for lighting and travel to the nearest town where they can charge their mobile phones for a $0.25 fee. While many residents have a TV or radio charged by a car battery, the only way recharge the battery is to carry it over 20 minutes on foot to the nearest town.

La empresa generadora de energía solar, Neoen, establecida en el país desde 2014, puso en operación comercial dos baterías con capacidad para almacenar un total de 11 ...

With these new additions, Neoen"s batteries in El Salvador will reach a total power of 14 MW and a storage capacity of 10 MWh, making it the largest group of energy storage batteries in Central America.

The solar PV plus storage facility, Capella Solar, has been officially opened providing electricity and power reserve to El Salvador"s grid. The Capella Solar operation located in the Usulután department in El Salvador"s southeast - about 100km to the southeast of the capital San Salvador - is noteworthy for several reasons.

This paper contributes to the literature by describing two separate, small-scale SHS projects implemented in El Salvador. Each project offered solar home systems to a community isolated from the power grid. One project was market-based, designed to demonstrate that poor households could become consumers of these products at going prices.
