Enocean gmbh Tunisia

OverviewCompanyTechnologyApplication examplesEnOcean AllianceSoftware automationSee alsoExternal linksEnOcean GmbH is a venture-funded spin-off company of Siemens AG founded in 2001. It is a German company headquartered in Oberhaching, near Munich, which currently employs 60 people in Germany and the USA. It is a technology supplier of energy harvesting wireless modules (transmitters, receivers, transceivers, energy converter) to companies (e.g. Siemens Building Technologies, Distech Controls, Zumtobel, Omnio, Osram, Eltako, Wieland Electric, Pressac, Pe...

EnOcean is the pioneer of energy harvesting and sensor-to-cloud solutions for sustainable IoT applications. The maintenance-free, wireless EnOcean switches and sensors gain their energy from movement, light, or temperature changes.

Eltako is one of the major suppliers of EnOcean wireless-based products into the market today. EnOcean GmbH, based in Oberhaching near Munich, stands for the largely battery-free wireless standard and is an important pillar in the supply chain of Professional Smart Home products.

Founded in 2001 by EnOcean set out to revolutionize building automation through energy-harvesting wireless technology. EnOcean aims to enable sustainable, battery-free devices and smart solutions that reduce environmental impact and improve daily life.
