Eritrea solar companies in lusaka

What are the benefits of solar energy in Eritrea?
The government of Eritrea has been making efforts to promote the use of alternative sources of energy,especially solar energy,to mitigate the problems associated with the use of fossil fuel. A major benefit of solar energy is that it does not pollute the environment and saves money in the long runeven if its installation cost is quite high.

Does Eritrea have solar power?
Eritrea's weather, characterized by long sunny days throughout the year, makes it suitable for harnessing solar power. Data from the wind and solar monitoring stations installed in many parts of Eritrea show that the country has a great potential, around 6 kwh/m2 of solar energy.

What is Eritrea's main source of energy?
Eritrea's major source of energy is petroleum,which drains the foreign currency reserves of the country and is globally a major cause of pollution. The government of Eritrea has been making efforts to promote the use of alternative sources of energy,especially solar energy,to mitigate the problems associated with the use of fossil fuel.
