Why is Niger developing a trigger-based adaptive safety net?
Credit: Ollivier Girard /World Bank Located at the heart of the Sahel,Niger has experienced repeated droughts leading to growing food insecurity over the past 20 years. It is the first country in the region to develop a trigger-based adaptive safety net for drought response to provide early assistance to affected households.

What is the government of Niger?
The government of Niger is the apparatus through which authority functions and is exercised: the governing apparatus of Nigerien state. The current system of governance,since the Constitution of 25 November 2010,is termed the Seventh Republic of Niger.

Why is Senegal a member of ECOWAS?
Senegal is already a member of several other regional organizations,such as the Economic Community of West African States (ECOWAS) and the Community of Sahel-Saharan States (CEN-SAD). These memberships provide Senegal with a framework for regional cooperation and economic integration.

Why did the Nigerien government create ass?
The Nigerien government had the backing of Mali and Burkina Faso,which promised military aid to Niger in the event of an intervention,and Guinea,which offered diplomatic support. The promises of military aid resulted in the creation of ASS as a mutual defense bloc for the three nations in an attempt to stave off an ECOWAS intervention.

What judicial system does Niger have?
Niger's independentjudicial system is composed of four higher courts - the Court of Appeals,the Supreme Court,the High Court of Justice and the Court of State Security. The 1999 constitution,as well as law since that date,created a number of government bodies.
