To prevent fire or personal injury, never charge or discharge a cell before verifying the information yourself using the original specifications sheet provided by the ...

So I have used rePackr to build my first 14s80p packs and ea. worked out to 180ah per cell pack, I am now wanting build my next 14s80p and I have more than enough cells, when I use rePacker there is no option to specify both cells in parallel and pack capacity, the idea is to have rePackr build the next 14 packs @r 180ahea. using 80 cells per pack out of all the ...

What has been your guys average success rate when harvesting cellsfrom old laptop batteries? So far, I have got 10/41 cells (25% success rate) out of 7 battery packs so far. I have 43 more laptop batteries to go, so maybe my success rate will go up. This seller on ebay posts lots of them...

The pic I posted earlier is an old version. Since I did not like the flex on the middle cells (row 3) I made it 6x4 having now one M4 bolt directly tensioning 2x2 ...

At DIY community i am hearing about Sinopoly and Thundersky and Winston etc. But in key players of LFE we only read about CATL, BYDetc. I had an old image in my mind Winston is amazing with its Yttrium cathodeetc with unbeatable 2000+cycles etc.

Is there a battery pack database similar to secondlifestorage cell database to tell which pack needs what kind of discharge rate cells? For power tools, vacuums, garden equipment, etc. ...

My PowerShelf project has come a long way sinceI started collecting 18650 cellsabout 2 years ago. This is the latest status (April 2020): Background: I"ve had my gridtied system with feed in tariff installed a few years ago, which unfortunately is nearly useless on cloudy days and entirely...
