Firefly solar Timor-Leste

Is there a market for roof-top solar energy systems in Timor-Leste?
Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

Who is Firefly solar?
Firefly Solar empowers home and business owners to extinguish their utility bills with solar panel systems. We know solar technology,and our experienced crews install it with authority. We also protect your solar energy investment with the best insurance in the industry. Stay Lit.

Does Timor Leste have a country Factsheet?
Specifically for Timor Leste,country factsheet has been elaborated,including the information on solar resource and PV power potential country statistics,seasonal electricity generation variations,LCOE estimates and cross-correlation with the relevant socio-economic indicators.

Why did Timor - Leste invest in solar photovoltaics?
According to Silva,the government's purpose was to invest in Solar Photovoltaics (PV) because it can help Timor - Lestesaves the cost of fuelwhich will be filled with generators in Hera and Betanu. "Every year the Government pays $126 million for the fuel which will be filled in the generator," he said.

How long does a solar system last in Timor-Leste?
High electricity costs and readily available solar radiation mean that the average payback period for a rooftop photovoltaic (PV) solar energy system in Timor-Leste is only 1.5 to 3 yearsinstead of the global average of 6-10 years. Transitioning to solar can also help the country meet environmental commitments.

Is Timor-Leste a good country for solar energy?
Timor-Leste has a high-quality solar resource. The global horizontal irradiance in Dili is higher than on the east coast of Australia,where the solar market is mature and installation costs are higher. The cost of electricity in Timor-Leste for commercial and industrial consumers is high compared to ASEAN countries.
