Freiburg solar energy CuraÃ§ao

What is solar energy in Freiburg?

In 1986,after the Chernobyl nuclear disaster,Freiburg's municipal council voted for a progressive energy approach focused on solar energy as the main source of energy. This has led to the Freiburg Solar Regionand Solar Capital concepts,and the Green City Freiburg cluster concept.

Is Freiburg a good place to buy solar panels?

Freiburg also requires a stringent energy standard on all new home-building, and this also leads to the use of solar panels (see also Barcelona). The main energy provider Badenova is majority owned by the public sector and plays a leading role in delivery and promotion of renewable energy.

Is Freiburg a'solar city'?

Freiburg,Europe's "solar city",has goals of achieving 100% renewable energy by 2035 and carbon neutrality for the city by 2050. In Freiburg (as in the rest of Germany),solar energy has guaranteed feed-in tariffs (thanks to Germany's Electricity Feed-in Law). Freiburg is a shining example of the success of Germany's energiewende.

Why is Freiburg a great place to invest in solar energy?

The Freiburg region has the highest density of exemplary solar power schemes,the largest population of solar energy researchers and the most dynamic centre of technological advancement and product innovation anywhere in the world.

What is the Freiburg solar region and green city Freiburg?

This has led to the Freiburg Solar Region and Solar Capital concepts,and the Green City Freiburg cluster concept. Freiburg itself is one of the sunniest places in Germany,with 1,800+hours/year of sunshine and an annual radiation intensity of 1,117 kW/m2.

What type of energy does Freiburg use?

In addition to using solar poweras a major energy source,Freiburg uses biomass for a significant share of the city's energy needs. The majority of Freiburg consists of woodland,green spaces,and agricultural lands; there are over 5000 hectares of forest surrounding the city.

Die aus der Gründerzeit stammende Villa Tannheim ist Sitz der International Solar Energy Society (ISES). Der Verband arbeitet für die weltweite Anwendung von 100% erneuerbaren Energien, insbesondere der Solarenergie. Die Villa ...
