Ghana maru systems

What makes Maru GreenTech unique?
Our R&D and production divisions are engaged in creating a diverse portfolio of products. Maru Greentech's key, most well-known client is green energy rental firm De Groene Aggregaat. Innovation is inextricably intertwined with efforts to make society more sustainable and with the energy landscape in which MARU is situated.

Who are Maru solar & Maru GreenTech?
Together Maru Solar,Maru Greentech and Maru Innovations make up MARU. Nonetheless,MARU's history goes back to 2008,when the focus was still on installation work and fitting solar panels. Maru Group's focus is long-term,with growth being driven by innovation and creating value for the market.

Why should you choose Maru solar?
Together we are fulfilling the growing demand for green electricity, with innovation being our mainspring. Maru Solar has been specialising in bespoke solar power systems for the consumer and commercial markets since 2007. Solar panels are now an indispensable part of our society.

MARU AUTO PARTS is the first auto parts company run by Koreans directly in Ghana. All parts are 100% original brand from Korea, and only brand-new are supplied to the Ghanaian market. Our vision is to create a safer Ghanaian automobile culture through reliable parts supply. We are looking for colleagues to join us on this journey.

MARU has been producing and supplying sustainable energy since 2008. We develop clean, low-emission energy solutions, with customers deciding on the degree of sustainability themselves. Maru Group comprises three organisations that complement and bolster one another: Maru Solar, Maru Greentech and Maru Innovations.

We ontwikkelen schone en emissiearme energieoplossingen. MARU wil de eerste Europese leverancier worden van hoogwaardige duurzame (mobiele) energievoorzieningen, die de eindgebruiker helpen om de mate van duurzaamheid zelf te bepalen. Maru Group bestaat uit drie bedrijven: Maru Solar, Maru Greentech en Maru Innovations.

We develop clean, low-emission energy solutions. MARU is keen to be the first European supplier of high-quality sustainable (mobile) energy facilities that will help end users to decide on the degree of sustainability for themselves. Maru ...

We develop clean, low-emission energy solutions. MARU is keen to be the first European supplier of high-quality sustainable (mobile) energy facilities that will help end users to decide on the degree of sustainability for themselves.
