Gibraltar vitaro energy

What is the Gibraltar Electricity Authority?
Gibraltar Electricity Authority is an agency under the Government of Gibraltar responsible for regulating the Gibraltar electricity market. The authority was created on 28 March 2003 under the Gibraltar Electricity Authority Act 2003. Its responsibility is to generate, distribute and supply electricity to the civilian population of Gibraltar.

Does Gibraltar have electricity?
Until recently, Gibraltar's electricity supply was dependent on some 40 diesel-powered engines and turbines distributed across Gibraltar. In 2019 a new, modern power station situated at the North Mole commenced operation running long term on liquid natural gas (LNG).

Why does Gibraltar need a new power plant?
This secures Gibraltar's energy supply economically, environmentally and sustainably. The associated closure of the three old plants represents the largest measure taken to improve air quality and reduce greenhouse gas emissions. The new power plant consists of six engines; 3 of which run on natural gas and 3 of which are dual fuel.

Who are Vitaro energy's clients?
Our clients include national oil companies,multinationals,leading industrial companies and utilities. Vitaro Energy offers a range of high-grade bitumen and diesel products to customers across the construction industry in Romania and neighbouring countries.

Why does Gibraltar need a LNG power system?
The people and businesses of Gibraltar will have better air quality,a quieter environment,and see the rewards of better energy efficiency. Michael Caetano,Chief Operational Officer of the Gibraltar Electricity Authority (GEA) When Gibraltar upgraded its nearly 40-year-old power system,they opted for a unique LNG solution.

Why does Gibraltar have a power station?
Through a remarkable feat of engineering,the power station on the North Mole in Gibraltar Harbor allows the quasi-island to continue its proud history of independence and self-sufficiency,regardless of what international politics hold in store.
