Givenergy gateway Tajikistan

What is givenergy - all in one - gateway?
GivEnergy - All In One - Gateway By purchasing the additional Giv-Gateway, the All in One can provide whole house backup in the event of a power failure. The Giv-Gateway provides seamless switching between grid and battery ensuring that your property is always powered. Giv-Gateway also facilitates a connection point fo

Does givenergy need a wired connection?
GivEnergy tells us that we don't need a wired connectionbetween the gateway and evc,and that it can do it over the network. Afaik,this is a cloud connection,not a local connection,which I am not happy with at all. The gateway manual seems to tell us that a wired connection is possible but it doesn't describe how exactly this works.

What does givenergy do?
Aiming to help the environment by leaving behind a clean legacy,GivEnergy create products that are designed to save money on electricity bills while optimising efficiency. With over 30 distribution warehouses,we offer same day dispatch and next working day delivery across the United Kingdom with all in-stock products.

Does givenergy charge a delivery charge?
Some products may incur an additional £150delivery charge where a palletised delivery is required. GivEnergy - All In One - Gateway By purchasing the additional Giv-Gateway,the All in One can provide whole house backup in the event of a power failure.

Does givenergy EV charger work with AIO?
Yes,it's an GivEnergy EV charger. You're right on that they should talk to each other but this is where I'm not confident. The current way the ev charger talks to the rest of the GivGateway and AIO set up is over the cloud. So it connects back to GivEnergy's servers to talk to the gateway.

Compatible with the GivEnergy All in One, the Giv-Gateway allows for seamless switching between battery and grid. This means you can keep the power on in the event of a grid outage. Moreover, the Giv-Gateway ...
