Hikvision"s solar-powered product family continues to grow, adding multiple functions and formats - even kits you can design yourself for your unique application. The new-generation solar-powered products provide flexible viewing angles, simple deployment, and reliable performance for virtually limitless scenarios.

During daylight hours, the built-in solar panels charge the wireless solar security cameras" batteries, storing power for nighttime operation. So if your solar panel security cameras are equipped with rechargeable batteries, they can provide continuous surveillance even in the absence of sunlight.

Our kits are capable of running ANPR cameras, CCTV cameras, and off-grid security cameras and lighting, providing you with convenient monitoring and advanced functionality. Our solar panel kits are designed to harness the power of the sun and convert it into clean and renewable energy that can power your security systems.
