Our work directly affects Guinea"s access to the global supply chain and the subsequent implementation of green energy nationwide. The minerals we contribute directly impact the world"s ability to produce the vital components needed to reduce our carbon emissions and enable a climate-neutral world.

GuineaSolar is a turnkey Solar Power Systems integrator. At GuineaSolar we consider everything - from the environment right through to your operational costs and bottom line. We focus on complete solar PV plants that are custom designed to your needs.

CleanPower Generation develops renewable energy solutions for sub-Saharan Africa. The German company is currently working on an 82 MW solar project in Guinea, one of the largest independent solar power production projects in the West African region.

GREEN Limited specializes in comprehensive renewable energy solutions for residential and commercial buildings. We have extensive experience in everything from the most modern new builds with clean technology to rural settings where there is limited or no reach.
