The RFF project in Grenada aims to support the country"s low-carbon energy transition and COVID-19 green recovery effort. The project conducted in 2022 has delivered its products, including an electricity demand profile, an assessment of renewable energy potentials, review of generation plans and costs.

Greener was founded in January 2018. We make an impact on the CO2-footprint in on- and off-grid energy markets using mobile batteries and energy planning. ... We were shocked to discover how little thought had gone into accurately and efficiently planning the power supply of equipment such as lights, audio and food trucks.

1 ??· This initiative is a crucial step toward sustainable energy development for Grenada, supporting the country in its efforts to transition to cleaner energy and lessen its environmental ...
