Greenland solar shops

Does Greenland have green energy?
Greenland's proportion of green energy varies from town to town to settlement. With an agreement on new hydroelectric plants in Qasigiannguit and Aasiaat and the expansion of the existing one in Nuuk,green energy should spread across the Greenlandic geographical map.

Will green energy spread across Greenland?
With an agreement on new hydroelectric plants in Qasigiannguit and Aasiaat and the expansion of the existing one in Nuuk,green energy should spread across the Greenlandic geographical map. The political course is set in Greenland,with less importing of oil from abroad and a much larger share of green energy in Greenland.

Is Greenland ready for future opportunities?
The journey is long and complex,but there is more momentum for change than ever,and that development makes sense. Looking at international investments in the energy sector,there is a greater focus on renewable energy,and Greenland is gearing up to be part of future opportunities.
