Guam solar power utility company

Why choose generation renewable - Guam?

I am extremely pleased with my solar system from Generation Renewable - Guam. I was paying more than $400.00 for power to GPA before getting a solar system from Generation Renewable - Guam... I was never really able to save money on power until I got a solar energy system from Generation Renewable - Guam...

Does Guam have plans for a solar farm?

Guam has announced plans for several large solar farms. The island has adopted a renewables policy that requires the reduction of fossil fuel consumption by 2020 to 20% less than the rate in 2010. Another requirement is for 5% of electricity in 2015 to be from renewables,increasing to 25% by 2035. A net metering program began in 2009.

Does Guam have a power plant?

Afterward,ownership of the plant converts to GPA. The power plant is a key project for the utility agency and for Guam,not just as a significant power source for the island,but as a major milestone in the consent decree between GPA and the U.S. Environmental Protection Agency.

GUAM | Generation Renewable provides state of art technology for sustainable energy independence now and all future generations. Solar Energy, Renewable Energy, Sustainable Energy - Residential, Commercial, Local & Federal ...

Solar power is mainstream, and with a Federal Tax Credit of 30%, the time is now to invest in a solar system that will lower your power bills, increase the value of your home, and reduce greenhouse gas emissions. Below, we outline some key advantages of adopting solar power for your home on Guam:

Eliminate or Lower Energy Costs. With a solar system, you can generate free power over a 25-30 year life cycle. Even if you do not produce all of the energy you consume, your utility bills will be much smaller and save you lots of money.
