Guernsey rational energy

What is the energy strategy for Guernsey?
The Committee for the Environment &Infrastructure is developing an Electricity Strategyfor Guernsey. The strategy will consider expected future energy demand levels and set out how this demand could be met,whilst also reviewing how the market structure will need to change to support this.

Will gas be a part of Guernsey's net zero future?
Gas will continue to have a place in the energy mix as it is vital for the success of our island's energy transition - and we plan to be a big part of Guernsey's Net Zero futureso we can continue to provide energy for every generation. Guernsey Energy has been providing energy for every generation for almost 200 years.

Will Guernsey's new electricity strategy come after a long-term deal?
A leading businessman has criticised Environment and Infrastructure's (E&I) new electricity strategy for Guernsey. Jon Moulton said the strategy should come after a long-term dealon power supply has been signed with French energy suppliers. The current deal for electricity supply with French energy supplier EDF is set to run out in 2027.

What is Guernsey's energy policy 2020-2050?
The Energy Policy 2020-2050 established that the vast majority of Guernsey's energy supplies will come from clean, low carbon sources by 2050 at the latest, local renewable generation will be encouraged and residual emissions will be offset. In order to deliver this, the six following objectives were agreed:
