Guinea-Bissau kronos energy

Energy Situation and Priorities 1. Guinea-Bissau has a dual energy economy based on domestic wood-fuels and imported oil. About 90% of total energy consumption is accounted for by firewood and charcoal, which are used in almost all households for cooking as well as in traditional rural, commercial and artisanal activities.

Image: Offshore Technology. Also available in French and Portuguese. Guinea-Bissau has several offshore areas that hold good prospects for a variety of independent exploration and production (E& P) companies, as well as International Oil Companies (IOCs) that are currently operating in several of the MSGBC Basin countries including Sweden"s Svenska ...
