In St. Kitts, the St. Kitts Electricity Department (SKED) is undergoing a similar process, which is on track to be finalized by the end of 2010. 1.2 Energy Supply 2. Given the vulnerability of the economy of the small island developing state of St. Kitts and Nevis, which is heavily dependent upon imported petroleum, and,

Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product. It effectively measures how efficiently a country uses energy to produce a given amount of economic output. A lower energy intensity means it needs less energy per unit of GDP.

Basseterre:St Kitts and Nevis recently got into a solar farm deal and a wind farm deal, said Dr. Bertil Browne,
