Haiti sollar price

Can solar energy be used effectively in Haiti?
Solar energy can be used effectively in Haiti,offering energy self-sufficiency to the most isolated cities in the absence of a power grid. The country's location in the tropics gives it very strong solar energy potential. It is believed that solar energy will play a fundamental role in access to electricity over the next 10 to 15 years.

Why is energy so expensive in Haiti?
The economy in Haiti has a heavy reliance on fossil fuel energy which is entirely imported. But rising energy prices caused by the recent global social and economic turmoilhave hit the domestic energy market hard. Today,Haiti sees some of the highest diesel costs in the world,peaking at $15 per gallon.

Why is Zola launching in Haiti?
The launch in Haiti is also ZOLA's first time tapping into the North American market. The economy in Haiti has a heavy reliance on fossil fuel energy which is entirely imported. But rising energy pricescaused by the recent global social and economic turmoil have hit the domestic energy market hard.

Why are electricity rates so high in Haiti?
Electricity rates in Haiti are higher than the average in the regiondue to EDH's inability to provide reliable,centrally-supplied power. This lack of reliable power continues to drive demand for alternative power solutions,such as new electrical power systems,generators,inverters,solar panels,and batteries,as well as their maintenance.

How does Zola help Haiti green solutions?
In addition, by facilitating localized solar energy production and providing smart technology with remote management tools, ZOLA empowers Haiti Green Solutions to build out a network of distributed renewable energy devices and manage that network in a centralized fashion.

How much does diesel cost in Haiti?
Today,Haiti sees some of the highest diesel costs in the world,peaking at $15 per gallon. Public facilities such as schools and hospitals relying on power from diesel-fuelled generators can even hardly maintain regular operations.
