Haiti sunlink pv

Why did Zola electric join Haiti green solutions?
Energy technology company ZOLA Electric announced the partnership with local renewable energy pioneer Haiti Green Solutions for the deployment of its flagship energy technology platform to help address the energy crisisin the country,where the vast majority of its 12-million population lack access to reliable and affordable energy.

Why is Zola launching in Haiti?
The launch in Haiti is also ZOLA's first time tapping into the North American market. The economy in Haiti has a heavy reliance on fossil fuel energy which is entirely imported. But rising energy pricescaused by the recent global social and economic turmoil have hit the domestic energy market hard.

Will Haiti get a mini-grid?
Haiti's first tender for renewable energy mini-grids resulted in two private consortiums being selected to develop seven sites, with concessions likely signed in the near term.

Does Haiti have electricity?
Only a quarter of the Haitian populationhas access to electricity. The national power utility company,Electricité d'Haïti (EDH),predominantly serves the Port-au-Prince metropolitan area,and a limited number of isolated power grids connect the rest of the country. Many rural Haitians have limited alternatives to power their homes.

Does Haiti have a power grid?
The national power utility company,Electricité d'Haïti (EDH),predominantly serves the Port-au-Prince metropolitan area,and a limited number of isolated power grids connect the rest of the country. Many rural Haitians have limited alternatives to power their homes. "There's always been a shortage of electricity in the country," says Anne.

What does USAID do in Haiti?
Through the Haiti INVEST activity,USAID works with Haitian business advisory services firms,like GEKA,one of the six transaction advisors participating in the investment facilitation program to help local businesses like ESG Group prepare to solicit and access capital to expand their operations.
