Since so many printers these days have network capability and little or no extra cost, a network printer in one"s home is quite desirable. Ethernet and Cat_ only use (4) of the wires in the cable. Cat6 or 6e or 7 cables will typically have (4) pairs of wires in the cable - that"s a total of (8) wires.

Users might associate guest networks as something that only businesses use, however they can similarly configure a guest network on their home router. Using a guest network allows visitors to access your WiFi, but prevents them from accidentally accessing your devices or personal files. Keeping your home network safe should be a priority ...
