GUAM | Generation Renewable provides state of art technology for sustainable energy independence now and all future generations. Solar Energy, Renewable Energy, Sustainable Energy - Residential, Commercial, Local & Federal Government and Military

Our panels capture the sun"s energy, channel it through discreetly placed wires to an inverter, where it"s converted to electricity to power your home. When your solar power system produces more power than you need, It feeds the power back into the electricity grid.

Solar energy offers a sustainable, renewable, and abundant power source for the island of Guam. Solar power is mainstream, and with a Federal Tax Credit of 30%, the time is now to invest in a solar system that will lower your power bills, increase the value of your home, and reduce greenhouse gas emissions.

Generation Renewable - Guam and Sunnova are now offering Solar Energy Systems with Battery Storage Systems. This means that your back up panel board in your home will have power even when utility power isn"t available, like during power outages or during and after a storm.
