Hoppecke battery Mauritania

Is Hoppecke a good battery?
HOPPECKE offers energy storage solutions as lead-acid- or nickel-cadmium industrial battery systems in almost any application where critical backup DC energy is needed. Having ISO 9001,14001,IEC,DIN,TUV,DNVGL and many other international standards and certifications,Hoppecke is one of the highest quality batteries on the market today.

Who makes Hoppecke batteries?
Railway and metro systems propulsion and safeguarding (rail). With headquarters in Brilon-Hoppecke,with 22 international subsidiaries,more than 2,000 employees worldwide belong to the HOPPECKE family. Today,HOPPECKE is Europe's largest privately owned manufacturer of industrial batteries.

What chemistries does Hoppecke offer?
HOPPECKE offers batteries in many different chemistries including AGM VRLA,Flooded,Gel VRLA,Lithium Ionand more. Alpine Power Systems performs services on HOPPECKE stationary batteries including battery replacements,battery installations,battery preventative maintenance,battery repairs and recycling.

What accessories does Hoppecke offer?
Hoppecke designed and put into market several important accessories over and above the high quality of the cell itself. Fully insulated inter-cell connectorsfor 'no-touch' highest safety systems. AquaGen (TM) gas recombination flame arrestors to reduce hydrogen emissions as much as 98% and reduced watering and maintenance costs.

What are the advantages of the Hoppecke double pole concept?
In combination with increased conductivity, due to the use of the HOPPECKE double pole concept, with pole inserts optimized for length and material, the high current capability is significantly improved for critical load requirements.....Read more

Manufacturer of wet nickel cadmium batteries. Available with 10 A to 1,100 A hour capacity and -40 degrees C to +60 degrees C operating temperature. Various features include flame arrestor safety vent, low pressure vent with internal gas recombination and transparent flame retardant plastic containers.

HOPPECKE Batteries is the largest producer of industry battery systems in European ownership. Since 1927, the family company has been developing and producing in Germany, and thanks to its leading research and development activities, it has all reliable and innovative storage technologies in its product portfolio.

HOPPECKE offers batteries in many different chemistries including AGM VRLA, Flooded, Gel VRLA, Lithium Ion and more. Alpine Power Systems performs services on HOPPECKE stationary batteries including

battery replacements, battery installations, battery preventative maintenance, battery repairs and recycling.

The core element, which is typical for an energy system, is the project and engineering service of HOPPECKE, which makes a system both customer-oriented and of higher quality. Full-Service solutions include the entire product and service portfolio of energy systems (such as remote maintenance contracts and operator models).

HOPPECKE offers energy storage solutions as lead-acid- or nickel-cadmium industrial battery systems in almost any application where critical backup DC energy is needed. Having ISO 9001, 14001, IEC, DIN, TUV, DNVGL and many other international standards and certifications, Hoppecke is one of the highest quality batteries on the market today.
