India container trafostation

Why is India establishing 23 exclusive container rail terminals?
India is establishing 23 exclusive container rail terminals to enhance the movement of export-import cargo. Private concessionaires will receive favorable financial terms to develop these terminals,which will prohibit bulk cargo handling. The initiative aims to boost container loading on Indian Railways and increase revenue.

How India is boosting container loading on Indian Railways?
The initiative aims to boost container loading on Indian Railways and increase revenue. India is planning to set up exclusive container rail terminalsat 23 locations to boost movement of export-import (exim) cargo on its national transporter.

Will Indian Railways set up a container terminal?
According to officials aware of the plan, more lucrative financial terms have also been offered to private concessionaires for setting up dedicated container terminals for the Indian Railways. Loading and unloading of bulk cargo, such as coal and iron ore, will be banned from these container terminals.

How many container terminals are there in India?
"Container terminals will be spread across the country, with five in Maharashtra, four in Tamil Nadu, three in Rajasthan and two in Delhi and Haryana each," a top official aware of the plan told ET. Such terminals are also proposed in Jharkhand, Madhya Pradesh and West Bengal, the official added.
